

EDUCATION

University of Chicago, Department of Statistics, Chicago IL Expected August 2017

Ph.D. Statistics

Department of Education GAANN Fellowship Recipient

Relevant Coursework: Applied Linear Statistical Methods, Generalized Linear Models, Applied Longitudinal Data Analysis, Data Mining, Applied Survival Analysis, Mathematical Statistics, Design/Analysis of Experiments, Statistical Genetics, Distribution Theory, Stochastic Processes, Sample Surveys

DePaul University, Chicago IL Jun 2011

Bachelor of Science in Biology (conc. Cell & Molecular Biology) & Mathematical Sciences (conc. Statistics)

Summa Cum Laude

RESEARCH EXPERIENCE

University of Chicago, Department of Statistics, Chicago, IL Oct 2013 - Present

Graduate Student with Dr. Mary Sara McPeck

- Genome-wide association mapping of binary traits in the presence of related individuals using a retrospective approach with a MCMC-based fitting algorithm
- Rare variant association testing with binary trait in structured samples using a quasi-likelihood approach
- Re-sampling method based on a retrospective genetic model to correct for multiple testing

DePaul University, Chicago, IL Jan 2010 - Jun 2011

Research Assistant with Dr. Windsor Aguirre's Lab

- Develop AFLP markers to study genetic differentiation of Ecuadorian fishes

Harvard Medical School, Boston, MA Jun 2010 - Aug 2010

Summer Research Assistant with Dr. Ulrike Eggert's Lab

- Use FRET technique and small molecules to analyze the Rho pathway during cytokinesis

Field Museum, DNA Lab, Chicago, IL Jun 2009 - Aug 2010

Research Intern

- Obtained DNA sequences from lichenized fungal species
- Analyzed the data in a phylogenetic tree and developed future goals
- Presented my research to 30 scientists at the REU Symposium

TEACHING & LEADERSHIP EXPERIENCE

University of Chicago, Department of Statistics, Chicago, IL

Statistical Consultant, Team Leader

Sep 2013 - Present

- Project #1: Rhesus Monkeys Display Behavior – *Generalized Linear Models*
- Project #2: Investigating Wealth of Russian Oligarchs – *Linear mixed models*
- Project #3: Influence of Ottoman Empire on Corruption in Romania – *Kriging, regression trees*

Teaching Assistant

Jun 2011 - Present

- Assisted in undergraduate courses: Statistical Methods and Applications, Statistical Models/Methods, Applied Regression Analysis and Analysis of Categorical Data
- Created introductory material for R and STATA through weekly computer sessions
- Organized weekly office hours where students expanded their understanding of course materials

University of Chicago, Department of Statistics, Chicago, IL

Statistics Collaborative Learning Team Leader

Oct 2016 – Mar 2017

- Facilitated the design of a new program based on collaborative learning
- Created workshop exercises and managed weekly workshops where I assisted students on working in groups

Course Instructor

Mar 2014 – Jun 2014

- Taught an introductory course on statistical methods (STAT 234: Statistical Models/Methods)
- Designed course materials and delivered bi-weekly lectures to a class of 36 students
- Assisted students in office hours with learning statistical concepts as well as R programming skills

SKILLS

Computing: Proficient in R, C, LaTeX | Intermediate in STATA, Python, Microsoft Office & Tableau

Languages: Fluent in French (native) and English, Spanish (Intermediate) and beginner in Japanese and Korean
